Safe Harbor Statement

These materials contain forward-looking statements. You should not place undue reliance on these statements because they are subject to numerous uncertainties and factors relating to the Company's operations and business environment, all of which are difficult to predict and many of which are beyond the Company's control. Forward-looking statements include information concerning the Company's possible or assumed future results of operations, including descriptions of its business strategy. These statements may include words such as "may," "will," "should," "believe," "expect," "anticipate," "intend," "plan," "estimate" or similar expressions. These statements are based on assumptions that we have made in light of management's experience in the industry as well as our perceptions of historical trends, current conditions, expected future developments and other factors we believe are appropriate under the circumstances. You should understand that these statements are not guarantees of performance or results. They involve known and unknown risks, uncertainties and assumptions. Although the Company believes that these forward-looking statements are based on reasonable assumptions, you should be aware that many factors could affect the Company's actual financial results or results of operations and could cause actual results to differ materially from those in the forward-looking statements. These factors are discussed in more detail in the Company's filings with the Securities and Exchange Commission. These risks could cause actual results to differ materially from those implied by forward-looking statements. You should keep in mind that any forward-looking statement made herein, or elsewhere, speaks only as of the date on which it is made. New risks and uncertainties come up from time to time, and it is impossible to predict these events or how they may affect the Company. The Company has no obligation to update any forward-looking statements after the date hereof, except as required by federal securities laws.

EPAM Overview

Fast-growing opportunity in a sizeable global market

Deep talent pool of highly-skilled professionals delivering solutions through best-in-class engineering combined with strategy, consulting and innovation services

Ability to deliver a broad range of software engineering, digital engagement, consulting and IT services with a strong focus on innovative and scalable software solutions

Industry solutions for Financial Services, Travel and Consumer, Life Sciences and Healthcare, Business Information and Media, and Software and Hi-Tech

Serving clients from 25+ countries across North America, Europe, Asia and Australia

Proven ability to grow and sustain a strong profitability model

ABOUT EPAM

We are consultants, designers, architects and engineers who enable our customers to be competitive and disruptive in the marketplace through innovative technology solutions while helping them to navigate successfully through multiple waves of technology change.

We help our customers be more competitive by delivering solutions through best-in-class engineering combined with strategy, design, consulting and innovation services.

We adopt a global growth strategy, thinking and acting like start-ups, working in multidisciplinary teams and delivering results. Relentlessly.

Non-GAAP Financial Measures

During EPAM Systems, Inc.'s earnings calls, in our earnings releases and investor decks, management supplements results reported in accordance with United States generally accepted accounting principles, referred to as GAAP, with non-GAAP measures. Management believes these measures help illustrate underlying trends in EPAM's business and uses the measures to establish budgets and operational goals, communicate internally and externally, for managing EPAM's business and evaluating its performance. Management also believes these measures help investors compare EPAM's operating performance with its results in prior periods. EPAM anticipates that it will continue to report both GAAP and certain non-GAAP financial measures in its financial results, including non-GAAP results that exclude stock-based compensation expense, write-offs and recoveries, acquisition-related costs, amortization of purchased intangible assets, goodwill impairment, certain other one-time charges and benefits, changes in fair value of contingent consideration, foreign exchange gains and losses, the impact of U.S. tax reform, excess tax benefits related to stock-based compensation, and the related effect on income taxes of the pre-tax adjustments. Management also compares operating results on a basis of "constant currency," which is also a non-GAAP financial measure. This measure excludes the effect of foreign currency exchange rate fluctuations by translating the current period revenues and expenses into U.S. dollars at the weighted average exchange rates of the prior period of comparison. Because EPAM's reported non-GAAP financial measures are not calculated in accordance with GAAP, these measures are not comparable to GAAP and may not be comparable to similarly described non-GAAP measures reported by other companies within EPAM's industry. Consequently, EPAM's non-GAAP financial measures should not be evaluated in isolation or supplant comparable GAAP measures, but rather, should be considered together with the information in EPAM's consolidated financial statements, which are prepared in accordance with GAAP. EPAM's earnings releases available on our [website](#) and furnished to the SEC include reconciliations of results between GAAP measures and Non-GAAP measures.
